

2021/22 HFNZ-Boehringer Ingelheim Progeny Competition

Entries close 24 September 2021

Conditions

1. Entries are limited to current Holstein Friesian New Zealand members residing in New Zealand.
2. There are two sections, Senior & Junior with three prize winners in each section.
 - a. Junior teams are made up of four daughters from one sire. Daughters must be under two years and six months of age at the time of calving and must be in-milk at the time of inspection.
 - b. Senior teams are made up of five daughters from one sire. Four daughters must be older than two years and six months of age and must have calved and been tested in the year or the year preceding the competition. Senior teams may include one Junior animal.
3. Cows must be milked at the normal time.
4. All animals must be submitted for classification or, if previously classified must be available for inspection. All animals will be re-assessed for competition entry.
5. For previously classified cows which are dry at the time of classification, the udder and overall points score from their last classification will be used to determine the type points.
6. Entries must be registered Holstein Friesian and be a minimum of F12.

7. All animals in the team must be owned by one family/member and milked in the same herd.
8. The sire of a team must be a registered Holstein Friesian.
9. Animals may be substituted at the time of inspection i.e. for ill health, death.
10. The office will verify all animals through the National Database.
11. All results are available for publication.

Points
