<b>Holstein Friesian Cows</b>	78	<b>In-Calf Heifers</b>	59
<b>Ayrshire Cows</b>	49	<b>Yearlings</b>	20
<b>Total</b>			323

## Vendor Foreword

Trilogy Genetics was fully established just last season with the best pedigree lines of Friesian, Jersey and Ayrshire cattle that we could find within our budget.

We're proud of the group of cattle we managed to put together. It is disappointing that we are in our current position but know that under the circumstances, we are making the best decision for the interests of our young family. The decision is not based on financial circumstances, and we plan to get back into a better sharemilking environment in the near future. There are some big opportunities here for people to purchase cattle from studs that are no longer around and this may be one of the last opportunities to do so.

The jersey portion of the herd is made up of pedigree cattle with a basis of great cow families and years of breeding behind them. We are very happy with how they have performed for us on a challenging undeveloped swamp farm. The lines represented are from Freydan, Tironui, Thornwood, Carnmor, Roma, Belgrove and the incalf heifers are from Glen Kaycee. Overall, the cows are a very uniform group with good udders and dairyness, a testament to their breeders and we are sure they will do well for their new owners as they have for us in a very trying environment in a very difficult season.

The Friesian group of cattle are made up largely from Fenton, Rangeview and Woodcote with a few additional stars added in the group. The Fenton cows are large, overseas bred animals with good conformation. The Rangeview cattle have done very well for us and are very good all-round cattle as are

the Woodcote cows. Included in the lineup are 3 cows carrying contract matings, 1 is already a current bull dam.

The Ayrshire group of cattle were put together from the Kauri stud and a base of cattle we owned that originate from Southwind and our own breeding over recent years. The Ayrshires have exceeded expectations with the majority having put together solid LWs and have adjusted well to TAD milking from the OAD lactations they were adapted to. Many of these cows were purchased as the later group of calvers from Kauri and hence why the majority are due Late August/September. They have in fact maintained their calving interval in most instances. We have full confidence these cattle will shift well and produced for their new owners.

We are intending to retain a small group of cows and mainly young stock to restart our herd in the future however the cattle on offer include many of our very best. We have on offer something for every cattle enthusiast due to the massive range in genetics. Conformation, production, and key cow families have been our focus when purchasing.

We look forward to welcoming people to our open day to view the herd on Friday the 29th April, if you are unable to attend this date we are flexible to allowing inspection on other arranged dates.

**We wish you all the best with your purchase.**  
**Cheers Matt, Issy and Cassie**

# Auctioneers Foreword

This is a forward that I wished we didn't have to write knowing that a passionate young family will be selling the herd they had dreamed about putting together.

Never-the-less the decision to sell has been made with a plan to re-enter the industry at herd ownership level in the future. In knowing this young, motivated couple, I'm sure they will re-center and achieve much success down the farm race.

Matt and Issy have many generations of dairy cattle breeding enthusiasts close-up in their own pedigrees which I'm sure has assisted in their astute understanding of quality breeding and strong eye for

quality cattle. Collected from some of our industry leaders, this offering has it all, deep cow families, top conformation, strong production performers, genetic diversity through to multiple AB contracts. Their selection process has already proved the shiftability of these top genetics and gives the next owner every confidence.

We wish Matt and Issy all the best and encourage all dairy farmers needing additional stock or that special one to not overlook this offering.

## bidr®

This sale will be hosted by bidr® ([www.bidr.co.nz](http://www.bidr.co.nz)) as a sequential auction.

- For all intending purchasers, you must register on bidr® in advance of the sale date, by visiting the website and using the "sign up" button, adding your contact information and nominating the agency you would like to purchase through and the account held with that agency. Alternatively, you can organise an agent from one of the agencies listed on bidr® to buy on your behalf.
- The bidr® team is always available to help purchasers get signed up and registered, and the HelpDesk is proudly managed in-house from Ruakura.

Please call 0800 TO BIDR (0800 86 2437), or email [enquiries@bidr.co.nz](mailto:enquiries@bidr.co.nz) for assistance at any point. Alternatively, contact Jessica Davies from bidr® for any enquiries on 0273672837.

## Herd Notes

The herd have been farmed on a very wet and undeveloped swamp with very old pasture, supplemented with 3kgs Pro Cow and a bit of silage in the deficits when conditions allow. We think they have performed well considering the conditions they have faced and are confident they will shift well for their new owners. The race and paddock conditions caused a lot of lameness through mating which had an impact on production and reproduction.

The herd are mainly due to AI mating dates except for a few that were hand-mated to two recorded Friesian bulls that were not run in the herd, due to the conditions of the races.

AI sires used for mating were chosen with a focus on improving conformation and production while maintaining udders. Many cows are in calf to sexed semen and this is stated in the catalogue.

The two bulls used for natural mating were Rangeview Gaunt Bison-ET and Rangeview Gaunt Henk S2F. Bison was an ET Gauntlet son from Rangeview Mint Bramley-ET VG85 PW 618. She also has 2 outstanding daughters for sale as lots 142 and 143. We considered this bull to be as good as any NZ A.I sire. Henk was a Gauntlet son from a great old cow Rangeview Fluke Heidi S1F EX. She is the grandam of lot 149.

SGL semen was used heavily particularly after the first 3 weeks, however after milking the cows for a lactation and putting together the catalogue it is obvious many of these cows were underestimated and would be worthy to breed from.

The herd were pregnancy tested via milk testing on the 3rd of March. All mating details on their 3GPs are updated with the results of this.

The heifers were run with Jersey bulls from the 20th October to the 4th January and have all been scanned in calf on 25th February 2022. A small group were at home during the start of mating so were mated to AI, and then tailed with the Jersey bull from the 3rd December when they returned to grazing.

The cows have been on OAD since the 10th February and are in great condition. They have been milked through a 40 aside herringbone shed but many of them came from rotary sheds originally.

All stock have been leptovaccinated and youngstock are up to date with other vaccinations.

Cows will be sold as in milk for immediate delivery from the 5th of May.

All of the youngstock have been grown very well and are in exceptional condition. Their individual weights will be added on Bidr closer to sale date.

## DISCLAIMER:

The information printed in this catalogue is derived from data supplied by the vendors and stored in the National database. Although every care has been taken to ensure accuracy in the production of this catalogue, the vendors, the vendors' agents, the Auctioneers or its agents, LIC, its subsidiary or its agents who collect, process or publish the information supplied; and the printer do not take any responsibility or liability for any errors, omissions or misstatements contained herein.

## OSH:

Every effort will be taken by the Vendors, Auctioneers, their staff and assistants, both on the day of the sale as well as on any other visits of inspection to ensure the safety of intending buyers and visitors. However, we wish to advise that this is a farm run under normal management conditions and certain dangers exist in relation to livestock and their environment. Visitors should take all care to ensure their personal safety and children must be supervised at all times.

## CONDITIONS OF SALE

**FEMALE GUARANTEE:** Every female shown as bred on a certain date, except any which may have been served within six weeks of the sale, is guaranteed in-calf. Every female where shown as pastured with a bull is guaranteed in-calf. This guarantee expires five weeks from day of sale.

Where this catalogue specifies an expected calving date (other than a pastured with bull expected calving date), and that date later proves to be completely inaccurate, the Vendor shall refund 25% of the purchase price direct to the Purchaser. As a basis of arbitration a period of fourteen days either side of specified calving date shall constitute the maximum tolerance allowed for calving. The 25% refund shall not apply where pastured with bull details and dates are printed in this catalogue, unless it is specifically stated that the specified calving date guarantee is to apply.

The foregoing conditions shall apply only after the following guarantees:

1. Where a veterinary certificate is supplied at the date of sale certifying the female as being in-calf, no further liability will fall on the Vendor subject always to liability under other clauses contained in the Conditions of Sale and the Special Conditions of Sale. The purchaser has the right to retest at his or her own expense before delivery is made from the place of sale.
2. Where a female is offered for sale as being in-calf, without a supporting Veterinary Certificate and the female is subsequently proved to be empty the Purchaser has the right to return the female to the Vendor or carry out such disposal as the Vendor may instruct and the Vendor will refund to the Purchaser the purchase price plus the transport costs only.
3. Mummified Calf: Where any female sold as being in calf proves to be carrying a mummified calf, no responsibility is to be born by the Vendor.
4. Yearling Heifer Guarantee:
  - a) Yearling Heifers sold as unmated, are sold with the guarantee to breed. The term to breed shall constitute to produce a calf, dead or alive. Should the heifer fail to produce a calf by 31 December 2022, the Vendor shall refund in full the purchase price.
  - b) Where a yearling heifer is sold as unmated, this constitutes a guarantee that the heifer is not in-calf as at the date of sale.
  - c) The use of MOET or IVP reproductive techniques on a female after purchase completely negates the breeding warranty.
5. Any complaint to the Auctioneers must be accompanied by a Veterinary Certificate; word of mouth will not be sufficient proof.

<b>DELIVERY:</b>	All purchases, as is customary, will be at BUYER'S RISK FROM FALL OF THE HAMMER.
<b>PRICING:</b>	All animals are sold in NZ dollars exclusive of GST, unless otherwise stated.
<b>ONLINE PURCHASING:</b>	You should only place a bid if you intend to buy the animal on offer at the price entered. If you place the winning bid where an Agency has agreed to accept the charges for any purchases made by a user in that Auction, charging will be applied to that agency for all lots purchased by the user in that Auction.
<b>INSURANCE:</b>	If Transit or Annual Insurance is required, such cover can be arranged through the Auctioneers on application.
<b>INSTRUCTIONS:</b>	Purchasers are asked to sign dockets before leaving the sale and to leave full and explicit transport instructions.
<b>TRANSFERS:</b>	Vendors are responsible for completion of all transfers. No purchaser shall be entitled to withhold payment for pedigree stock pending execution of delivery by the Vendor of the transfer of the same, registrable in the Stud Book.
<b>COMMISSIONS:</b>	If it is not possible to be present, the Company's Stud Stock Specialists who are thoroughly conversant with the offering will be glad to make selections or bid on specified lots according to instructions.
<b>TERMS:</b>	Payment by 10 days following date of sale.
<b>OTHER CONDITIONS</b>	The sale is also subject to the general conditions of sale displayed at the sale.

Another big opportunity to purchase a Carnmor cow, classified 9-9 and in calf to Valentino. Exciting to think of the potential of that calf

Had mastitis on one test which increased her SCC, should come right next season with DCT.

From the Craufurd Ohio Stylist EXC family. Nice heifer.

Very likable heifer with massive potential given the strength of her pedigree on both sides. Descends to Craufurd Ohio Stylist EXC and Deloraine Fever Valma EXC. Exciting matings to Downtown.

Trade Livestock Like Never Before

1

Sign up at [www.bidr.co.nz](http://www.bidr.co.nz) and add your agency account under account details

2

Browse auctions to find livestock you are interested in buying

3

Login and register for the real time online auction to bid for the livestock you wish to purchase

Real time auctions, bid on livestock from anywhere.

All livestock listed by livestock agents and assessed by accredited assessors.

Nationwide Reach. Bringing more buyers and sellers together, Virtually.

Buy livestock straight from farm resulting in less stress on animals and positive environmental benefits.

Full livestock assessment information for buyers and nationwide reach for sellers.

Contact your bidr Representative to sign up at [bidr.co.nz](http://bidr.co.nz)
