Jamie Cunninghame (PGG Wrightson)

027 223 7092

Stewart & Julia Eden

027 275 9516 (Stewart)

027 227 6988 (Julia)

Offering comprises of:

187	Holstein Friesian cows
23	Holstein Friesian in-calf heifers
27	2022 Holstein Friesian spring born heifers
5	Java South Devon bulls
242	

Welcome to our complete dispersal sale.

In this introduction are a few relevant points that you will need to know before making your decision about your purchase.

We run a 199ha effective fully self-contained farm. All young stock are raised and wintered on the property. The young stock are set stocked on grass through the winter. All the cows are wintered on the property. Most of the cows are in the barn. All our beef cows are also raised here on the property with all progeny from the beef cows taken through to the end product.

We grow 80% of our feed on farm and use less than 150kg of N a year.

The cows are fed a 2kg supplement mineral pellet as there is no dosetron on farm up until December and then 1kg for the rest of the season. 100 tonne of PKE is fed per year.

Our stocking rate is in excess of five hundred head.

For the 2022 winter we made the decision to end winter milking and moved the 20% autumn calving herd to a spring calving. 2022 was our first entire spring calving for 13 years!

The cows here today are sold in milk, these cows can be dried off prior to leaving the property by mutual agreement and at purchases cost.

We are bulk milk tested BVD negative.

The cows were pregnancy scanned on the 6th of April 2023 to ensure pregnancy status at time of sale.

We run two breeds of beef bulls simultaneously with our herd. Hereford and South Devon. We monitor mating closely and use both observed mating and scanning dates to give as accurate as possible calving date. It should be noted though that the South Devon can have a longer gestation than other beef bulls up to 10 days.

Due to unavailability of AI technicians we did put the bulls out to cover the cows while we attended Christchurch show 6-12th November. Animals mated in this time have this marked in the comments below the animal.

We then simultaneously ran a herd of cows for an Ovsync programme, and the bulls were out with the rest of the herd. The bulls ran with the herd on the 22nd November.

The in-calf heifers are first AI and then when AI is finished, they are covered with a calving ease Hereford bull.

Stewart & Julia Eden

AUCTIONEER'S FOREWORD

It is with great pleasure that I pen a few lines on behalf of the selling agents for the 'Fermoy Holsteins' End of an Era Sale for Stewart and Julia Eden.

Indeed down through the years our vendors have developed a wonderful Holstein herd by introducing the very best of sires from around the world and building on superior female lines. Today's herd features many daughters of such famous sires as Impression, Uno, Fever, Solomon, Sidekick, Unix, Bardo, Control, Byway, Flame, Dealmaker, Megawatt, Albumn and the joined heifers feature many by Perseus, Alcove, Chief, Impression, Victor and Uno with yearlings by Alcove, Einstein and Redcarpet. Then we note the great joining sires that this herd sells in calf to, the likes of Icarus, Dropbox, Handpick-P, Lemagic, Sidekick, Impression, Sugarhigh, Solarpower, Crushabull, Victor, Perseus and Almamater to name a few. Yes, they're by the best bulls and mated to the best for your advantage.

Selling today will be no less than seven cows classified EX along with 90 on VG. Cows sell with records to 11,358 litres, 385kgs protein and an amazing 506kgs fat. There are so many from leading 'world recognized' maternal lines including several bred back to La Presentation Daurel, EX, 64 SBC, Tri Day Ashlyn, EX

96, Dryfield Dundee Paradise, IDW Grand Champion. Murribrook Shottle Shelly VG87, a daughter of Wilsona Champion Shelly EX91 and so much more!

I must make special note of the exceptional young cow Fermoy Byway Tori VG87, this mighty young cow is from an EX Solomon dam then an EX Bradnick from Tahora Taylormade Toni EX. Yes an incredible young cow destined to a great future and backed by generations of wonderful cows and she sells due to the hot sire Dropbox! Don't miss her and several family members selling.

I have inspected the herd and heifers, simply a tremendous herd that are so very uniform, lovely udders and such beautiful dairy frames. We also note no less than 64 lots selling are tested A2A2.

It is only complete dispersal sales where you get the opportunity to buy the 'best of the herd' today you have the opportunity to buy from many years of selective breeding.

We do hope you can join us at the farm for this important sale, but if not then there will be live online bidding available at bidr®.

Looking forward to your company.

Brian Leslie
Auctioneer

This sale will be hosted by bidr[®] (bidr.co.nz) as a HYBRID ON-FARM auction, with online bidding and a live-stream available for online purchasers.

All intending online purchasers must register with bidr[®] using an account held with one of the bidr[®] partner agencies in advance of the sale date.

The bidr[®] team is available to assist intending purchasers with signing up and registering – please call 0800 TO BIDR (0800 86 2437), or email enquiries@bidr.co.nz for assistance at any point.

CONDITIONS OF SALE

The following special conditions apply to this sale where applicable:

FEMALE GUARANTEES:

1. Every female shown as bred on a certain date, except any which may have been served within six weeks of sale, is guaranteed in-calf. This guarantee expires 28 days from the sale date.
2. Where a sale catalogue specifies a calving date and the resultant calf is not acceptable for registration by the MINDA service of the Livestock Improvement Corporation (LIC) or by the relevant Breed Society because the calf is born eleven days or more either side of the specified calving date and the paternity is not able to be verified the seller shall refund 25% of the purchase price plus GST direct to the buyer.
3. This clause 2 does not apply if the sale catalogue states that a bull was pastured after AB ceased.
4. Where a veterinary certificate is supplied at the date of sale certifying the female as being in-calf, no further liability will fall on the seller subject to liability under the other clauses contained in the Conditions of Sale. The buyer has the right to retest at their own expense before delivery is made from the place of sale. Where a female is offered for sale as being in-calf, without a supporting veterinary certificate and the female is subsequently proved to be empty, the buyer has the right to return the female or carry out such disposal as the seller may instruct and the seller will refund direct to the buyer the purchase price plus the return transport costs.
5. Cows sold as not in-calf at the time of sale, shall be sold with a guarantee to breed. The term breed shall constitute producing a calf, dead or alive. Should the cow fail to produce a calf by the 31 December 2024, the seller shall refund in full the purchase price direct to the buyer.
6. Yearling heifers sold as unmated are sold with the guarantee to breed. The term breed shall constitute producing a calf, dead or alive. Should the heifer fail to produce a calf by the 31 December 2024, the seller shall refund in full the purchase price direct to the buyer.
7. Where females are sold as not in calf, (including yearlings and calves), are flushed for embryo transfer, either with or without success, all guarantees to breed become null and void.
8. Where any female sold as being in-calf proves to be carrying a mummified calf, no liability will fall on the seller.

9. Any animal which is sold as in-calf but subsequently aborts the foetus after delivery is the responsibility of the buyer and no liability will fall on the seller.
10. Any claim to the auctioneers must be accompanied by a veterinary certificate.

MALE GUARANTEES:

Guaranteed to be 'fit for purpose' this guarantee applies to fertility of bull, if the bull proves to be infertile the vendor will refund the purchase price plus GST. Any claim needs to be made by 20th November 2023.

STOCK REQUIREMENTS:

MIXED AGED COWS AND IN-CALF HEIFERS: Scanned In-calf 6th April 2023. Lepto vacc. prior to delivery.

MIXED AGED COWS: Sold as in-milk up to specified delivery date, Cows may be dried off at the purchaser's request, with costs to the purchaser.

R1 HEIFERS: Guaranteed empty (not in-calf) at time of delivery. 2nd Lepto vacc. prior to the sale.

BVD BULK MILK TESTED NEGATIVE.

GENERAL CONDITIONS:

DELIVERY: By the 26th April 2023, each lot at the fall of the hammer, will be at the risk of the buyer. Buyers to complete Purchaser's Instruction Slip (no delivery instructions will be accepted verbally) at the conclusion of the sale.

INSURANCE: If transit or annual insurance is required, such cover can be arranged through the auctioneers.

INSTRUCTIONS: Buyers must sign dockets before leaving the sale and leave full delivery instructions.

TRANSFERS: Purchasers are to supply their Herd Code, Participant Code & NAIT number as transfers will be done electronically. Sellers are responsible for the completion of transfers. No buyers shall be entitled to withhold payments for stock pending delivery by the seller of the relevant breed society transfer certificate or LIC Animal Location Certificate.

PAYMENT TERMS: Payment 14 days from Auction date.

PGW's Terms of Sale apply to this sale. When proceeds are credited or a purchase is debited to a PGW monthly credit account, then PGW's Monthly Account Terms of Trade (as amended from time to time) apply to the extent deemed relevant by PGW.

VENDOR'S FOREWORD

Welcome to Fermoy Holsteins catalogue for our End of and Era Full Dispersal Sale. We invite you to join us in person at our property in Balfour or online with bidr®.

We give you all the opportunity to own a piece of our 33 years of breeding Holstein Friesian cattle in this our first and only sale.

Fermoy was established in 1990 with a simple gift from my then employer Rod Nicolas, when I first went sharemilking with my late wife Rosemary. After helping shift our stock to our new sharemilking job, later that day we saw Rod's truck going down the road. When it swung into our cowshed, I went to investigate what was going on. In the back of the truck I found his favourite cow which he had written a poem about and put around her neck. This was "Rowe."

We flushed Rowe to Brabant Star Patron and got two heifers and one bull. Fermoy was born and with it one if not the most influential families in the Fermoy herd. The R family still remains strong and flourishing throughout the herd.

Along the way I have had so many positive influences and encouragement that are too numerous to name them all; but the standouts are Rod Nicolas, his guidance and help through my early years of sharemilking and then onto equity partnership have always been invaluable. Our friendship remains strong to this day.

Ray Lambert from the Rakanui Stud in Tokoroa was a mentor that I remember fondly. His advice and guidance gave me the grounding that I would take on into the future and still use the wise words he said to me all those years ago to this day.

The Matamata Holstein Friesian Club became a fundamental part of my learning in the early days. A group of like-minded people, passionate about cows and breeding. This was an invaluable experience and one that I remember fondly and do not take for granted.

A trip to Canterbury in the mid-1990s, that both Rosemary and I took, reinforced the passion for breeding. I remember arriving at the Crowe's family farm at around breakfast time. The cows were usually housed through the winter months (the time of year we travelled) but for us on that day, they let them out into a paddock, so we were able to examine and have a look at the entire herd in better detail. Richard's guidance and advise through the early years was invaluable.

It was on this same trip that I met the Stewart Family from Rangiora. Gordon Stewart also went out of his way to make our learning trip to Canterbury invaluable. He also let his cows out from their housing enabling us to really appreciate the good cows that were in the Cressland herd.

In 1999 Rosemary and I made the dramatic move South. With Jim Graham as our equity partner, we purchased a property at Riversdale. This property would eventually milk 1,300 cows through two x 54 bail rotary sheds.

In 2005 Rosemary passed away from Melanoma. After 30 years of marriage. Rosemary had been with me at the start of Fermoy and had supported all that I wanted to achieve in the constant strive to breed the next and better generation of cow.

Rowe and Stewart

In 2007 I remarried, Julia was a TSR with RD1 at the time, and had a passion for breeding beef cattle. This interest sparked new life into the passion that had faded a little with Rosemary's illness and subsequent passing.

Together we took the "bull by the horns" and with the continued aid of the Semex mate programme (now named Optimate) we continued to strive forward to breed cows that would milk and compete in a large herd situation.

In 2013 a mutual decision with both me and the Graham family saw us leave Riversdale and buy where we are today, a 216ha property at Balfour.

We were all but starting again. We owned 30 of our own cows, and we had the task of building the remainder of the herd from there on a budget that was not that generous! So, we purchased 60 heifers from the equity partnership and built the rest of the 260 cows we milked in our first season from budget cows. Three titter and over eight-year-old cows.

Julia and I then again focused on good points of each of these cows and still using Optimate we bred the cows we offer for sale today.

We have imported embryos from Canada and largely used North American genetics. We have focused not only on production, but daughter fertility and composition of milk. Fundamentally the structure of the cow, so she is able to walk, able to milk and has longevity in our herd have been our primary focus.

With 20+ years of using the Semex mate programme as our biggest influence in breeding knowing it takes the emotion out of breeding, we offer our entire herd today for sale.

Simply this is us.

We wish all purchasers all the best for the future that we know these cows will offer and thank you all for attending our sale.

OSH

Every effort will be taken by the Vendors, Auctioneers, their staff and assistants, both on the day of the sale as well as on any other visits of inspection to ensure the safety of intending buyers and visitors.

However, we advise that this is an operating dairy farm run under normal management conditions and certain dangers exist in relation to livestock and their environment.

Visitors should take all care to ensure their personal safety.

DISCLAIMER

All details and descriptions as to stock referred to in this catalogue or otherwise provided by the auctioneer or any other company employee or agent ("sales information") have been supplied by the Seller and have not been independently verified by the selling companies. The selling companies, their employees and agents make no representations or warranties or acknowledgement of any kind whatsoever in relation to any part of the sales information (including, but not limited to the accuracy or completeness of details and descriptions of stock and other contents).

Buyers, advisers and all other persons viewing or dealing with the stock must make their own assessment and judgement on the stock and sales information.

The selling companies, its employees and agents are not responsible or liable in any way whatsoever, whether in contract, tort (including negligence), or otherwise, to any person for any loss or damage whatsoever arising directly or indirectly from any information or representation included in or omitted from.

IMPORTANT NOTICE

The information printed in this catalogue is derived from data supplied by the Vendor and stored in the Livestock Improvement database computer system.

Whilst every care has been taken to ensure accuracy, no claims of any sort of error or omission may be made against Livestock Improvement Corporation Limited or its subsidiary or its agents who collect process or publish the information supplied

ATTENTION

Under the Health and Safety at Work Act 2015, we wish to bring to your attention your responsibilities while attending this on-farm sale. You are in a multi-hazard area and are requested to observe the following rules:

- All children under the age of 16 must be accompanied and under the supervision of an adult
- You are not to enter any yards, pens or races where stock are being moved or held
- Keep to the walkways or within the flagged areas provided
- Report any accident to the site office
- If you see anything unsafe, report it to the site office
- Follow the directions of the Auctioneer and selling Companies at all times.

The auctioneer has overall control of this site, and will ask you to leave if the above rules are not followed.

JAVA SOUTH DEVON BULL AUCTION

in conjunction with Fermoy Holsteins End of an Era Full Dispersal sale

Welcome to the first Java South Devon Bull Auction. We chose to auction our bulls this year in conjunction with our full dispersal sale of our Holstein herd. We invite you to join us in person at our property in Balfour or online with bidr®.

We are taking a step back and exiting dairying after for Stewart over 35 years in the industry full time.

For the first time we are offering offspring directly from the embryos we imported in 2014 (born 2015) from the Torr Down stud in Australia.

This family (the N family) has had a significant impact on our breeding. They offer all the attributes of the South Devon we are wanting to breed. They are easy doing, well fleshed and muscled. They have good fats and are not extreme size.

The Australian genetics have had a very positive impacts on where we as beef farmers get paid, in the EMA and the fats. Maintaining the true South Devon temperament is a must along with "easy doing" cows. Our cows are assigned "clean up duty" after the dairy cows to maintain pasture quality and they must achieve rearing a calf, getting back in calf and maintaining their own body weight while doing so.

This balance has worked well in our system running along side the dairy cows where we need the beef animals away at 15-18 months of age. They are consistently achieving this goal.

In conjunction with stud animals we run a commercial beef herd. The cows in this herd are predominantly South Devon crosses, offering the amazing maternal attribute this breed offers along with the growth of the Hybrid Vigour.

This year was our first year achieving the allusive local butcher trade with these animals obtaining the 15-month-old heifer carcass of 245kg.

We have used any bulls that have not previously been privately sold over the dairy cows, with the calves being well sort after at four days old. We have grown a number of these animals out ourselves and it is not uncommon to achieve a 320kg carcass at 15 months old.

All the bulls in this catalogue are heterozygous polled. They have been fertility and BVD tested and vaccinated by NSVets at Riversdale.

For us it is not all about the "show animal" while it is a great hobby and family time it does not pay the bills. Achieving the weights in the shortest time is what makes the "cash flow!"

Because of different base settings you are UNABLE to compare EBV'S across breeds. EBV'S can ONLY be compared WITHIN breeds.

Tonka has continuously and consistently proven himself throughout the years. Originally used as a heifer bull with great success, he was then used over the South Devon herd as sire bull. For the last four plus years he has been the main stay dairy herd sire, and back when we were winter milking would cover the Autumn Calving herd, then would have a few weeks break before heading out with the Spring Calving herd. He is in the top 10% for Birth Weight. His Holstein cross progeny have consistently grown out well and fast. Killing at 15 months around the 320Kg on the hooks. I cannot say enough about this bull and the positive impact he has had on our herd. He is the sire of the 2019 Junior Champion at

NZAG show, and his progeny have numerous wins in the show ring behind them. He has a great temperament and is set up right to walk the distance we asked him to walk every day.

This bull sired the 2022 NZAG Junior Champion. He has good calving ease data and his daughters are lining up to prove that his daughter calving ease is going to be accurate as they have wide rumps and are good hip to pin. With his very positive milk these heifers are shaping up to good future matrons of the herd. He has continued to add good fats and IMF to his progeny. If I was able I would be keeping one of his sons to continue breeding.
