# TARANAKI HOLSTEIN FRIESIAN BRANCH

## COMBINED BREEDERS SALE

TUESDAY 11 APRIL 2023 | SALE 12 NOON

Sale to be held on the property of Gary and Karen Peters 50 Denbigh Road, Midhirst, RD 24 Stratford 4394

<b>This catalogue comprises of</b>	20	In-calf Holstein Friesian heifers
	4	In-calf Holstein Friesian cows
	<u>5</u>	Holstein Friesian yearling heifers
NAIT No. 174978	29	

### Directions to sale

Denbigh Road is on the Midhirst township side of the railway overbridge on the main Stratford-Inglewood Road. Farm is first on the right. Supply No. 41021.

### Conditions of Sale

The following special conditions apply to this sale where applicable:

#### Female Guarantees

1. Every female shown as bred on a certain date, except any which may have been served within six weeks of sale, is guaranteed in-calf. This guarantee expires 28 days from the sale date.
2. Where a sale catalogue specifies a calving date and the resultant calf is not acceptable for registration by the MINDA service of the Livestock Improvement Corporation (LIC) or by the relevant Breed Society because the calf is born eleven days or more either side of the specified calving date and the paternity is not able to be verified the seller shall refund 25% of the purchase price plus GST direct to the buyer.
3. This clause 2 does not apply if the sale catalogue states that a bull was pastured after AB ceased.
4. Where a veterinary certificate is supplied at the date of sale certifying the female as being in-calf, no further liability will fall on the seller subject to liability under the other clauses contained in the Conditions of Sale. The buyer has the right to retest at their own expense before delivery is made from the place of sale. Where a female is offered for sale as being in-calf, without a supporting veterinary certificate and the female is subsequently proved to be empty, the buyer has the right to return the female or carry out such disposal as the seller may instruct and the seller will refund direct to the buyer the purchase price plus the return transport costs.
5. Cows sold as not in-calf at the time of sale, shall be sold with a guarantee to breed. The term breed shall constitute producing a calf, dead or alive. Should the cow fail to produce a calf by the 31 December 2024, the seller shall refund in full the purchase price direct to the buyer.
6. Yearling heifers sold as unmated are sold with the guarantee to breed. The term breed shall constitute producing a calf, dead or alive. Should the heifer fail to produce a calf by the 31 December 2024, the seller shall refund in full the purchase price direct to the buyer.
7. Where females are sold as not in calf, (including yearlings and calves), are flushed for embryo transfer, either with or without success, all guarantees to breed become null and void.
8. Where any female sold as being in-calf proves to be carrying a mummified calf, no liability will fall on the seller.
9. Any animal which is sold as in-calf but subsequently aborts the foetus after delivery is the responsibility of the buyer and no liability will fall on the seller.
10. Any claim to the auctioneers must be accompanied by a veterinary certificate.

#### General Conditions

**DELIVERY:** Each lot shall, immediately on the fall of the hammer, be at the risk of the buyer.

**INSURANCE:** If transit or annual insurance is required, such cover can be arranged through the auctioneers.

**INSTRUCTIONS:** Buyers must sign dockets before leaving the sale and leave full delivery instructions.

**TRANSFERS:** Sellers are responsible for the completion of transfers. No buyers shall be entitled to withhold payments for stock pending delivery by the seller of the relevant breed society transfer certificate or LIC Animal Location Transfer Certificate.

**PAYMENT TERMS:** Payment 14 days after date of sale.

**PGW's Terms of Sale apply to this sale. When proceeds are credited or a purchase is debited to a PGW monthly credit account, then PGW's Monthly Account Terms of Trade (as amended from time to time) apply to the extent deemed relevant by PGW.**

**NAIT**

**All purchases must supply their NAIT numbers at the time of registering to purchase.**

Dairy Genetics sales conducted in all parts of New Zealand by our expert staff. A special feature is made of selecting and purchasing for clients at either auction sales or by private treaty.

# Foreword

## Auctioneers Foreword

On behalf of the PGG Wrightson Taranaki Livestock team - a warm welcome to all vendors and possible purchasers to the 2023 sale.

Once again we have the opportunity to show case the Taranaki Breeders hard work to the country – that might mean being at the sale or watching and supporting on bid®.

Its great to see new vendors dipping their toes in the water and allowing their genetics and hard work be put under the hammer. This years sale certainly has a lot of bases covered and something for all purchasers.

We would like to take this opportunity to thank the Peters family for once again hosting the sale and we wish all purchasers the very best for the year ahead.

**Andrew Gibson**

## Muritai Foreword

Again, a very warm welcome to the 2023 Taranaki Branch sale being hosted at Gary & Karen Peters Midhurst property. A hearty thanks for the use of their facilities much appreciated.

The heifers offered are a selection of 2021 born heifers, once again selected from some of our best “Cow Families” at Muritai.

There are four heifers that carry the Polled Gene having been officially tested along with heifers that are included in Holstein Friesian Genetic Leaders Superior Female programme carrying valuable AB services.

The herd is TB C10 accredited, Mycoplasma Bovis not detected milk tested.

Heifers are Lepto/BVD vaccinated and scanned pregnant January 2023. Run with registered pedigree Speckle Park bull after AB mating until 2/01/2023.

Lots 4, 14, 15, 18, 20 pastured with pedigree Holstein Friesian bull DYWB-20-74 Muritai Jukebox Ladd P S3F (Polled) 8/10/2022-16/12/2022.

Wishing all purchases every success.

**Wayne & Leanne Taylor**

Karla is twin sister of Krystal. She could possibly be the best type of my three heifers. Unfortunately, I fed her some old colostrum that made her sick as a calf and she lost some hair. She is well now. Run with Jersey bull 7/11/2022 to 14/01/2023.

Due to Calve: 27/07/2023 Bull: 321530 Expected Calf: BAILEYS CARICK DECORUM ET Genomic Indicator: BW(\$): 95/21 PW(\$): 158/8 Mating Date: 20/10/2022

# Oceans of experience on the land

## OceanNUTRITION

Ocean Nutrition is your 100% natural, certified input for organic source of Nitrogen, Potassium and Phosphorus. N, P and K are essential nutrients to improve pasture growth. High analysis sources of N, P and K, are prone to losing much of the nutrition through runoff, leaching and volatilisation. In Ocean Nutrition, N, P and K are in their natural form and are utilised by the soil biology as a source of nutrients stimulating the soil ecosystem.

## PastureNUTRITION

Pasture Nutrition delivers an instant nutrient lift directly to your pasture. Feed availability & quality significantly impact your overall animal health, production and profitability.

Applying AgriSea Pasture Health direct to the leaf increases chlorophyll levels delivering greener, healthier pastures and crops, & a considerable lift in the fibre, protein and overall nutritional value. The best part is the improved health of your stock due access to grass that is so high in nutritional value!

*AgriSea*

**PROUD TO SUPPORT  
THE TARANAKI HOLSTEIN FRIESIAN BRANCH  
ANNUAL COMBINED BREEDERS SALE.**

Contact us for a farm consultation with your Area Field Consultant

Providing the primary sector with a complete nutrition solution that is better for animals, produce, the environment & business profitability.

## AnimalNUTRITION

AgriSea Animal Health leads to lower vet bills, happier animals and a more productive and profitable business.

AgriSea Animal Nutrition provides a vast range of natural nutrients, minerals, vitamins & trace elements that are immediately bio-available to your animals. Bolster your animals' immune system where nutritional deficiencies otherwise create health issues. Increasing resistance & recovery during periods of stress.

## SoilNUTRITION

Unlock the fertiliser already in your soil.

AgriSea Soil Nutrition is a conditioner which will feed your biology, improve soil structure & fertility. An active and diverse soil biology ensures an ongoing feed source for your pasture and animals. Minerals and nutrients already in your soil become bio-available to your pasture.

# LESS FERT MORE GRASS

Applying fertiliser in a liquid form allows you to lower your application rate by up to 50%.

100kg granular applied grows the same KGDM as 60kg in liquid.

- Utilise your dairy effluent or water
- Liquid fertilisers mixed & applied from \$19/ha
- Granular fertilisers mixed & applied from \$21/ha
- Urea and gibb mixed & applied from \$21/ha
- Gibb supplied for \$8/ha

Another silky black Polled Nippon daughter, her dam a cow we purchased and SR'd - note the evergreen sire's back in her pedigree. A nice type of heifer to finish our sale with.

### OSH

Every effort will be taken by the Vendors, Auctioneers, their staff and assistants, both on the day of the sale as well as on any other visits of inspection to ensure the safety of intending buyers and visitors.

However, we advise that this is an operating dairy farm run under normal management conditions and certain dangers exist in relation to livestock and their environment.

Visitors should take all care to ensure their personal safety.

### Disclaimer

All details and descriptions as to stock referred to in this catalogue or otherwise provided by the auctioneer or any other company employee or agent ("sales information") have been supplied by the Seller and have not been independently verified by the selling companies. The selling companies, their employees and agents make no representations or warranties or acknowledgement of any kind whatsoever in relation to any part of the sales information (including, but not limited to the accuracy or completeness of details and descriptions of stock and other contents).

Buyers, advisers and all other persons viewing or dealing with the stock must make their own assessment and judgement on the stock and sales information.

The selling companies, its employees and agents are not responsible or liable in any way whatsoever, whether in contract, tort (including negligence), or otherwise, to any person for any loss or damage whatsoever arising directly or indirectly from any information or representation included in or omitted from.

### Attention

Under the Health and Safety at Work Act 2015, we wish to bring to your attention your responsibilities while attending this on-farm sale. You are in a multi-hazard area and are requested to observe the following rules:

- All children under the age of 16 must be accompanied and under the supervision of an adult
- You are not to enter any yards, pens or races where stock are being moved or held
- Keep to the walkways or within the flagged areas provided
- Report any accident to the site office
- If you see anything unsafe, report it to the site office
- Follow the directions of the Auctioneer and selling Companies at all times.

The auctioneer has overall control of this site, and will ask you to leave if the above rules are not followed.

# Foreword

These five Autumn-born heifers were born at Animal Breeding Services, near Hamilton, in March 2022, from TVR work with their dam, Monte Vista FMI Mandy S3F, BLRJ-13-14. Monte Vista FMI Mandy S3F is a daughter of Farside Illustrious, and a grand-daughter of Fairmont Mint-Edition.

A half-brother of these heifers, Monte Vista TP Marine S2F (119016) (A2A2), has a BW 402/82, the 9th highest BW on the Holstein Friesian NZ Bull Update, from the February NZAEL Run.

Each of these five heifers is for sale with an LIC mating contract for 2023.

Their dam, Monte Vista FMI Mandy-ET S3F was born on our farm at Suffolk Road, Inglewood. We still own the farm but sold our herd to our 50-50 sharemilkers in June 2021.

I started sharemilking in 1976 near Stratford on my parents' farm. Rosemary and I purchased the core of our Suffolk Road farm in

1983, and then put sharemilkers on the farm for 10 years while we lived in Asia. In June 1994 we returned to our farm and put together a new herd, with the LIC herd code BLRJ.

In the late 1990s we began using the LIC Sire Proving Scheme bulls (which we continued with until we sold the herd) and started taking a keen interest in the breeding of our cows. This soon led to some TVR type work with Animal Breeding Services, and then to having some heifers in the HFNZ Discovery Project, and then to more TVR work. More than 10 years ago I started breeding our top performing cows to LIC nominated Friesian bulls, selected for BW and Fertility, as well as some other traits.

In 2018 we built a composting barn for our 300 cow herd and moved to a system five feeding system. Currently herd production is averaging 580KgMS/cow, 1,700KgMS/Ha, with 5% empties.
