Foreword

Rivendell Holsteins started in Mangakino in the mid 1980's, and via Atiamuri and Te Puke, has been in Southland since 2002. In all that time we have kept learning about the Holstein cow – their production potential, type traits and endless breeding combinations. The availability of a worldwide genetic base has proven to be invaluable over the years as we target more and more economically significant traits and at a faster pace, transforming the type of cow we had 40 years ago.

Provenance is one of the marketing trends today and the pedigree Holstein Friesian breeder is ideally placed to meet this. Every animal here has a story and I could write pages on every animal we have for sale. The story would be about the deep cow families with all their special attributes, and the breeders we have met along the way, many ending up being life long friends. We are grateful for all the help over the years from fellow breeders, everyone with a passion for the breed.

We step away from breeding Holstein Friesians confident that our animals will add to the breed wherever they go. Enjoy!

Production • Indexes • Conformation

We as stock agents don't often get to market herds with a 70 point gap between BW/PW. This selection of cows from the top end of the Rivendell herd far exceeds this.

When you walk through the herd at Rivendell the dairy qualities are obvious, capacious cows with great udders with the ability to produce a lot of MS for many lactations.

When you look deeper into the pedigrees it shows generations of cow families doing great production over many lactations.

We have all seen recently how well some of the overseas bulls that transmit desirable traits have converted to the NZ index.

This is a unique opportunity to purchase animals with high component BVs for protein and fat combined with top

conformation that on genomics are amongst the top in the country.

PGG Wrightson would like to thank Owen & Cathy for entrusting us with their sale and wish them all the best in their future endeavours.

Conditions of Sale

The following special conditions apply to this sale where applicable:

FEMALE GUARANTEES:

1. Every female shown as bred on a certain date, except any which may have been served within six weeks of sale, is guaranteed in-calf. This guarantee expires 28 days from the sale date.
2. Where a sale catalogue specifies a calving date and the resultant calf is not acceptable for registration by the MINDA service of the Livestock Improvement Corporation (LIC) or by the relevant Breed Society because the calf is born eleven days or more either side of the specified calving date and the paternity is not able to be verified the seller shall refund 25% of the purchase price plus GST direct to the buyer.
3. This clause 2 does not apply if the sale catalogue states that a bull was pastured after AB ceased.
4. Where a veterinary certificate is supplied at the date of sale certifying the female as being in-calf, no further liability will fall on the seller subject to liability under the other clauses contained in the Conditions of Sale. The buyer has the right to retest at their own expense before delivery is made from the place of sale. Where a female is offered for sale as being in-calf, without a supporting veterinary certificate and the female is subsequently proved to be empty, the buyer has the right to return the female or carry out such disposal as the seller may instruct and the seller will refund direct to the buyer the purchase price plus the return transport costs.
5. Cows sold as not in-calf at the time of sale, shall be sold with a guarantee to breed. The term breed shall constitute producing a calf, dead or alive. Should the cow fail to produce a calf by the 31 December 2024, the seller shall refund in full the purchase price direct to the buyer.
6. Yearling heifers sold as unmated are sold with the guarantee to breed. The term breed shall constitute producing a calf, dead or

alive. Should the heifer fail to produce a calf by the 31 December 2024, the seller shall refund in full the purchase price direct to the buyer.

7. Where females are sold as not in calf, (including yearlings and calves), are flushed for embryo transfer, either with or without success, all guarantees to breed become null and void.
8. Where any female sold as being in-calf proves to be carrying a mummified calf, no liability will fall on the seller.
9. Any animal which is sold as in-calf but subsequently aborts the foetus after delivery is the responsibility of the buyer and no liability will fall on the seller.
10. Any claim to the auctioneers must be accompanied by a veterinary certificate.

GENERAL CONDITIONS:

DELIVERY: Each lot shall, immediately on the fall of the hammer, be at the risk of the buyer.

INSURANCE: If transit or annual insurance is required, such cover can be arranged through the auctioneers.

INSTRUCTIONS: Buyers must sign dockets before leaving the sale and leave full delivery instructions.

TRANSFERS: Sellers are responsible for the completion of transfers. No buyers shall be entitled to withhold payments for stock pending delivery by the seller of the relevant breed society transfer certificate or LIC Animal Location Transfer Certificate.

PAYMENT TERMS: Payment 14 days after date of sale.

PGW's Terms of Sale apply to this sale. When proceeds are credited or a purchase is debited to a PGW monthly credit account, then PGW's Monthly Account Terms of Trade (as amended from time to time) apply to the extent deemed relevant by PGW.
