Conditions of Sale

The following special conditions apply to this sale where applicable:

FEMALE GUARANTEES:

1. Every female shown as bred on a certain date, except any which may have been served within six weeks of sale, is guaranteed in-calf. This guarantee expires 28 days from the sale date.
2. Where a sale catalogue specifies a calving date and the resultant calf is not acceptable for registration by the MINDA service of the Livestock Improvement Corporation (LIC) or by the relevant Breed Society because the calf is born eleven days or more either side of the specified calving date and the paternity is not able to be verified the seller shall refund 25% of the purchase price plus GST direct to the buyer. This clause 2 does not apply if the sale catalogue states that a bull was pastured after AB ceased.
3. Where a veterinary certificate is supplied at the date of sale certifying the female as being in-calf, no further liability will fall on the seller subject to liability under the other clauses contained in the Conditions of Sale. The buyer has the right to retest at their own expense before delivery is made from the place of sale.
4. Where a female is offered for sale as being in-calf, without a supporting veterinary certificate and the female is subsequently proved to be empty, the buyer has the right to return the female or carry out such disposal as the seller may instruct and the seller will refund direct to the buyer the purchase price plus the return transport costs.
5. Cows sold as not in-calf at the time of sale, shall be sold with a guarantee to breed. The term breed shall constitute producing a calf, dead or alive. Should the cow fail to produce a calf by the 31 December 2024, the seller shall refund in full the purchase price direct to the buyer.
6. Yearling heifers sold as unmated are sold with the guarantee to breed. The term breed shall constitute producing a calf, dead or alive. Should the heifer fail to produce a calf by the 31 December 2024, the seller shall refund in full the purchase price direct to the buyer.
7. Where females are sold as not in calf, (including yearlings and calves), are flushed for embryo transfer, either with or without success, all guarantees to breed become null and void.
8. Where any female sold as being in-calf proves to be carrying a mummified calf, no liability will fall on the seller.
9. Any animal which is sold as in-calf but subsequently aborts the foetus after delivery is the responsibility of the buyer and no liability will fall on the seller.
10. Any claim to the auctioneers must be accompanied by a veterinary certificate.

GENERAL CONDITIONS:

DELIVERY: Each lot shall, immediately on the fall of the hammer, be at the risk of the buyer.

INSURANCE: If transit or annual insurance is required, such cover can be arranged through the auctioneers.

FROM THE AUCTIONEERS

Fantastic Farms have created a name for themselves for breeding cows that produce a lot of milk while looking the part as well. Vaughan, Kristy and the kids have enjoyed huge success at many shows across the North Island and breeding families that last a long time.

At one stage Fantastic Farms consisted of 800 cows and have over time decreased in size keeping the better cows. In addition to this an extensive amount of embryo work including importing overseas embryos has left an outstanding herd of cows that is now on offer for your benefit.

They have always enjoyed sales, both buying and selling. Over the years Vaughan has always been very supportive of other sales bringing in different family lines that he thinks will work well in his herd. Fantastic farms have hosted sales in the past where the animals have gone on to make herd favourites and show winners. Most recently after the 1st stage dispersal in March of this year, one purchaser who bought seven animals has stated he thinks they may be the best animals he has ever purchased.

Selling the farm and herd of cows is only a recent plan so up until the past month the herd has been mated and run as if they were going to continue farming them themselves. This year Vaughan planned on moving more of the cows around to Autumn calving so condensed the spring mating which has led to there being more empty cows than usual.

I have full confidence that animals purchased at the Fantastic Farms second stage dispersal will move exceptionally well to their purchasers as they have in the past. On behalf of the Clarke Family we wish you all the best with your purchases.
