INTRODUCTION

INVEST IN THE BEST | WAIKATO 2024 HOLSTEIN FRIESIAN NZ CONFERENCE SALE

Sunday, 23 June 2024 at 2.00pm

Westell Properties, 193 Kakepuku Road, Te Awamutu

FOREWORD

Welcome from the PGG Wrightson team to the Holstein Friesian NZ Conference and Sale.

Members have to be congratulated for the quality genetics on offer. Some bred from their best cow families that for generations have performed at a high level within their herds, others closely related to some of the best international cow families from around the globe and of course sired by some of the leading type, production and indexing bulls available.

Alcove is one such sire with a great representation of daughters on offer. He has certainly put another prospective in the index/type scene within NZ.

Whether you are after a future show champion or wish to start a new high performing family within your herd this is a great opportunity offered to you by our vendors to achieve that goal.

There are terms available (stated in footnotes) on some of the animals. I'm sure if you are after a particular lot where terms haven't been stated, a discussion with the auctioneers before the sale, something may be able to be arranged.

bidr® will be operating as well.

On behalf of the Waikato Branch we present to you the "Invest in the Best Sale."

The breeders of the Waikato are to be congratulated for their willingness to offer their very best young animals for this sale.

There are a variety of bloodlines represented, from 100% imported cow families, NZ index ones with contract interest, as well as deep

domestic cow families plus three embryo lots from international cow families.

I would like to thank everyone involved for putting the sale together and Wendy and David Harker for providing the venue.

Duncan Pipe
Sale Coordinator

CONDITIONS OF SALE

The following special conditions apply to this sale where applicable:

FEMALE GUARANTEES:

1. Every female shown as bred on a certain date, except any which may have been served within six weeks of sale, is guaranteed in-calf. This guarantee expires 28 days from the sale date.
2. Where a sale catalogue specifies a calving date and the resultant calf is not acceptable for registration by the MINDA service of the Livestock Improvement Corporation (LIC) or by the relevant Breed Society because the calf is born eleven days or more either side of the specified calving date and the paternity is not able to be verified the seller shall refund 25% of the purchase price plus GST direct to the buyer.
3. This clause 2 does not apply if the sale catalogue states that a bull was pastured after AB ceased.
4. Where a veterinary certificate is supplied at the date of sale certifying the female as being in-calf, no further liability will fall on the seller subject to liability under the other clauses contained in the Conditions of Sale. The buyer has the right to retest at their own expense before delivery is made from the place of sale. Where a female is offered for sale as being in-calf, without a supporting veterinary certificate and the female is subsequently proved to be empty, the buyer has the right to return the female or carry out such disposal as the seller may instruct and the seller will refund direct to the buyer the purchase price plus the return transport costs.
5. Cows sold as not in-calf at the time of sale, shall be sold with a guarantee to breed. The term breed shall constitute producing a calf, dead or alive. Should the cow fail to produce a calf by the 31 December 2025, the seller shall refund in full the purchase price direct to the buyer.
6. Yearling heifers sold as unmated are sold with the guarantee to breed. The term breed shall constitute producing a calf, dead or alive. Should the heifer fail to produce a calf by the 31 December 2025, the seller shall refund in full the purchase price direct to the buyer.

7. Where females are sold as not in calf, (including yearlings and calves), are flushed for embryo transfer, either with or without success, all guarantees to breed become null and void.
8. Where any female sold as being in-calf proves to be carrying a mummified calf, no liability will fall on the seller.
9. Any animal which is sold as in-calf but subsequently aborts the fetus after delivery is the responsibility of the buyer and no liability will fall on the seller.
10. Any claim to the auctioneers must be accompanied by a veterinary certificate.

GENERAL CONDITIONS:

DELIVERY: Each lot shall, immediately on the fall of the hammer, be at the risk of the buyer.

INSURANCE: If transit or annual insurance is required, such cover can be arranged through the auctioneers.

INSTRUCTIONS: Buyers must sign dockets before leaving the sale and leave full delivery instructions.

TRANSFERS: Sellers are responsible for the completion of transfers. No buyers shall be entitled to withhold payments for stock pending delivery by the seller of the relevant breed society transfer certificate or LIC Animal Location Transfer Certificate.

PAYMENT TERMS: Payment 14 days after date of sale.

PGW's Terms of Sale apply to this sale. When proceeds are credited or a purchase is debited to a PGW monthly credit account, then PGW's Monthly Account Terms of Trade (as amended from time to time) apply to the extent deemed relevant by PGW.

This family never misses! Our pick of the R1's. She was halter trained in preparation to be our show heifer for next season.

Maternal sister to the dam is the one and only Te Hau Windbrook Cleo-ET EX2. Another maternal sister to her dam just sold for \$10,000 at the Busybrook Obsession Sale.

Her dam herself is a fuss free, no nonsense, first row cow that consistently does over 600kgMS/year and this is her one and only heifer calf. Will be a hard one to part with!

Alcove x Peer x Kian say no more. Fat test off the chains
here folks.
We have some full sister two-years-olds that are
currently doing over three solids. Longevity and
milk solids is what the Gorji's bring.
Her dam is still turning heads in the dairy as a rising
12-year-old.
A full sister went VG87 at 2yrs.

A very correct heifer that comes from a family that has bred some of our highest producers. As well as having three generations of EX behind her dam.

Te Hau Pharo Darna is a lovely long stretchy heifer who should grow into something special. She's from a great family that we have already shown with good success.

Her maternal sister, Te Hau Silvio Dani VG86, was Reserve Intermediate Champion Holstein at NZ Dairy Event 2023.

Her dam placed 1st in the Veteran Cow, Semex On-Farm Competition and was Reserve Champion highest pointed cow for the Waikato in 2024.

Calved early June 2024.
