Foreword

Fantastic line-up of exceptionally well-bred Holstein Friesian bulls that can be used with confidence in your mating program. Most are G3 profiled so their offspring can be fully recorded as replacement heifers. Whether you are looking for bulls from high BW - NZ bred cow families that have supplied numerous sons to AI - or overseas genetics that have proven conformation and production traits needed in a higher input system, you won't be disappointed when you look through this

catalogue. Bulls are predominately owner bred/reared and will come forward in excellent order. These bulls give you different options at mating time and would be great running with a non-cycling herd and condensing the calving pattern.

2 yrs - 20% Black. Super, super young bull already used at Waipiri. Probably a bit white for some, but from a family of mostly black cows. Sneeky Safari probably the very best cow ever milked at Waipiri. Was a star producer, staff loved her and always a star attraction with visitors. Supersire Safari has been a regular donor on the IVF programme. Don't miss this guy, super quiet and ready for some ladies.

Alligators are extreme in type and should cross well with the production of this family. Mace was the winner of the Holstein Friesian Tokaora Trophy - awarded to the 2-year-old with the best classification and protein BV's in the 2015/16 classification season. She was a VG87 Max 2yo. She has bred an EX daughter by Alcove and is the Grand dam of Westell Peptalk Midway who is currently receiving a proof at CRV. Her Backdrop daughter was our top priced cow at our dispersal sale and continues to perform well in her new owner's herd in Taranaki.

Another offering from our Northy family! We have sold Northy's to all over New Zealand in our sales over the last few years and reports have told us that they have performed extremely well. The highest BW heifer in NZ for the 23/24 season was sold to Meander Holsteins in our "The Future" sale who was a Northy!

A family that's produced numerous bulls for LIC. Ordain Elly has calved in derived and is looking the best we've seen her so far; to top it off she is doing close to 4 milk solids on the most recent test. A2/A2.
