Sale will be Conducted Live and on BIDR

ACCOMMODATION & TRAVEL

Amity Court Motel Stratford 06 765 4496
Stratford – 3 km to Makuri

TERMS AVAILABLE

Option One: Payment in full 14 days from the sale
Option Two: 50% Payment 14 days from the Sale & 50% Final Payment on 30th November 2025

DELIVERY

Any in-calf cows travelling a distance have the option to be dried off and dry cow therapy treated if required.
Please inform the auctioneers or advise the clerk when signing your purchase dockets.
Locally purchased cows will be milked out then trucked.
We prefer to have the cows trucked in single-deck crates. We will do our best to coordinate this.

CONDITIONS OF SALE

THE FOLLOWING SPECIAL CONDITIONS APPLY TO THIS SALE WHERE APPLICABLE:

FEMALE GUARANTEES:

1. Every female shown as bred on a certain date, except any which may have been served within six weeks of sale, is guaranteed in-calf. This guarantee expires 28 days from the sale date.
2. Where a sale catalogue specifies a calving date and the resultant calf is not acceptable for registration by the MINDA service of the Livestock Improvement Corporation (LIC) or by the relevant Breed Society because the calf is born eleven days or more either side of the specified calving date and the paternity is not able to be verified the seller shall refund 25% of the purchase price plus GST direct to the buyer.
3. This clause 2 does not apply if the sale catalogue states that a bull was pastured after AB ceased.
4. Where a veterinary certificate is supplied at the date of sale certifying the female as being in-calf, no further liability will fall on the seller subject to liability under the other clauses contained in the Conditions of Sale. The buyer has the right to retest at their own expense before delivery is made from the place of sale. Where a female is offered for sale as being in-calf, without a supporting veterinary certificate and the female is subsequently proved to be empty, the buyer has the right to return the female or carry out such disposal as the seller may instruct and the seller will refund direct to the buyer the purchase price plus the return transport costs.
5. Cows sold as not in-calf at the time of sale, shall be sold with a guarantee to breed. The term breed shall constitute producing a calf, dead or alive. Should the cow fail to produce a calf by the 31 December 2026, the seller shall refund in full the purchase price direct to the buyer.
6. Yearling heifers sold as unmated are sold with the guarantee to breed. The term breed shall constitute producing a calf, dead or alive. Should the heifer fail to produce a calf by the 31 December 2026, the seller shall refund in full the purchase price direct to the buyer.
7. Where females are sold as not in calf, (including yearlings and calves), are flushed for embryo transfer, either with or without success, all guarantees to breed become null and void.
8. Where any female sold as being in-calf proves to be carrying a mummified calf, no liability will fall on the seller.
9. Any animal which is sold as in-calf but subsequently aborts the foetus after delivery is the responsibility of the buyer and no liability will fall on the seller.
10. Any claim to the auctioneers must be accompanied by a veterinary certificate.

GENERAL CONDITIONS:

DELIVERY: Each lot shall, immediately on the fall of the hammer, be at the risk of the buyer.

INSURANCE: If transit or annual insurance is required, such cover can be arranged through the auctioneers.

INSTRUCTIONS: Buyers must sign dockets before leaving the sale and leave full delivery instructions.

TRANSFERS: Sellers are responsible for the completion of transfers. No buyers shall be entitled to withhold payments for stock pending delivery by the seller of the relevant breed society transfer certificate or LIC Animal Location Transfer Certificate.

PAYMENT TERMS: Payment 14 days after date of sale.

PGW's Terms of Sale apply to this sale. When proceeds are credited or a purchase is debited to a PGW monthly credit account, then PGW's Monthly Account Terms of Trade (as amended from time to time) apply to the extent deemed relevant by PGW.

DISCLAIMER:

All details and descriptions as to stock referred to in this catalogue or otherwise provided by the auctioneer or any other company employee or agent ("sales information") have been supplied by the Seller and have not been independently verified by the selling companies. The selling companies, their employees and agents make no representations or warranties or acknowledgement of any kind whatsoever in relation to any part of the sales information (including, but not limited to the accuracy or completeness of details and descriptions of stock and other contents).

Buyers, advisers and all other persons viewing or dealing with the stock must make their own assessment and judgement on the stock and sales information.

The selling companies, its employees and agents are not responsible or liable in any way whatsoever, whether in contract, tort (including negligence), or otherwise, to any person for any loss or damage whatsoever arising directly or indirectly from any information or representation included in or omitted from.

ATTENTION:

Under the Health and Safety at Work Act 2015, we wish to bring to your attention your responsibilities while attending this on-farm sale. You are in a multi-hazard area and are requested to observe the following rules:

- All children under the age of 16 must be accompanied and under the supervision of an adult
- You are not to enter any yards, pens or races where stock are being moved or held
- Keep to the walkways or within the flagged areas provided
- Report any accident to the site office
- If you see anything unsafe, report it to the site office
- Follow the directions of the Auctioneer and selling Companies at all times.

The auctioneer has overall control of this site, and will ask you to leave if the above rules are not followed.

THE STORY OF MAKURI HOLSTEINS

The first Holsteins registered under the Makuri Prefix were born in 1984. They were registered in my parents name but owned by myself. My Parents had a milking shorthorn herd with a few friesians. I had been working in the stock and station industry firstly as a farm shop assistant and then a merchandise rep for Farmers Cooperative. I went farming on my parents 110 cow farm near Kaponga in 1984. My passion has always been the farm and the cows, and I have always been extremely grateful for the opportunity to farm on their small high country (1100ft) farm. My parents had a herd of 95 Milking Shorthorns and 15 Friesians. I set out to breed and grow the Holstein Friesian numbers.

The herd became properly established in the late eighties with the strategic purchase of 3 cows from the Bert King's Kingsland herd at Silverdale. This cow family has been an important part of breeding at Makuri and is still prominent in the herd today. Soon after came the complete replacement line of yearlings from Don Grimmer's Makaka stud, followed by 20 cows and 10 heifers from John and Margaret Hewson's Richlea herd. These early purchases set the standard for the herd for years to come. From this foundation a herd of 120 cows were bred. Up to 25% of the herd was classified Excellent and the cows were doing around 500kgms.

In 1998 we sold the farm and purchased the old Ashford Stud farm of Claude Marchant's, near Stratford. During our time at Stratford, we enjoyed great success in the show ring winning the points prize seven of eight years and many championships. We were lucky enough to win the New Zealand Premier Dairy Cow 5 times with 3 different cows in the 1990s and 2000s.

Makaka Artist Flo EX2 and Makuri Storm Alice EX2 both won the title twice. Alice was breed and all-breed champion at both Egmont and Stratford shows, winning the all-breed NZ Premier Cow class at Stratford show in the same year. Makuri Sam Holly EX2 also won the Premier Cow class, placing high many other years. Holly has several descendants in the sale.

In 2009 we moved to the Manawatu when the opportunity arose to purchase a very good dairy farm from Dennis and Christine Terry of the Aranui stud. Initially we brought our

herd from Stratford and purchased 100 good-framed, grade cows. A couple years in, we had the chance to purchase the Painui herd from Neil Oldfeild, meaning the remaining grade cows were sold. The Painui herd was based on Mahoe, Lesdale and Tahora bloodlines. These cows were of a very high standard. As neighboring land became available to purchase, the herd grew to over 400 cows.

The draw back to Taranaki was fueled by the desire to be closer to friends and family. So, in 2018 when the opportunity to re-purchase my old Stratford dairy farm came about, I sold in the Manawatu. A very successful reduction sale was held with many animals travelling the length of the country to their new homes. Several of these animals did very well in on-farm competitions.

It didn't take long to settle back into my new/old farm.

The Holstein breed and all-breed North Island Championship was held at the Stratford Show in 2019. Makuri Gold Amber EX2 won North Island Champion Holstein. Makuri Goldwyn Hazel EX3 was Reserve North Island Champion Holstein and won Supreme all-breeds North Island Champion. These two cows remain at Makuri and are 12 and 15 years old, respectively. They will not be offered in the sale but have many daughters, granddaughters and great granddaughters going under the hammer.

The Best of the Dornview's were added to the herd from 2019. These cows have set a new standard for production at Makuri, with many leading the age group production in the past few years. Jo is a big part of what happens here at Makuri. She brings a new perspective and her attention to detail and care with the cows is admirable. She is a real asset to me and the Makuri herd.

It has now been over 40 years of farming and cows; it's time for a more relaxed lifestyle. The farm is being retained for now and we will run drystock. It is our intention to sell the 2024 born calves in an on-farm sale, next season.

OVER 40 YEARS OF HOLSTEIN BREEDING

BREEDING PLAN

I have always strived to breed a herd of cows rather than trying to breed the next show cow. Strength, length and width is the basis of the plan. The girls need to milk as well, we all have bills to pay. I have endeavored to breed a herd based around strong prepotent cow families whilst using solid, well proven sires. Durham bloodlines followed by Goldwyn sons, with an infusion Shottle, Windbrook, Solomon and recently, Sidekick, Chief and Lambda. To this end, I have not always been the first to use the latest "hot" bull. I have been generally content to wait and see some of their daughters or speak to respected breeders who are milking or seen daughters of these bulls. Cow families are at the heart of the Makuri herd, some going back to the early purchases. In the last 12 years or so the infusion of North American cow families have added international flavour to Makuri, the most successful being the Roxy's, the Mystique Amelie's and the Barbies.

FEEDING PLAN

The goal has always been to breed and feed good cows as best as we can. Pasture is the number one focus at Makuri. We ensure pasture quality through adequate grazing rotation length and pre-grazing mowing as required. We have always had in-shed feeding. A simple 50% palm kernel blend is fed.

I have a mixer wagon. Feeding Maize silage until mating and then grass silage and palm kernel are the main ingredients. I purchased a unit load of lucerne bailing for the wagon when grass was short last spring. Time, along with learning curves have meant we have settled on a cost-effective feeding plan. The focus is to maintain the MU (Milk Urea) over 20 and consistently observe the cow's daily health.

PRODUCTION

The 2023/2024 season was a record production at Makuri for both the farm and individual cows. 92 cows produced 62,600ms at the factory, averaging 661ms per cow on herd test. This included 7 grade cows and 4 milking shorthorns. For bulk cell count, Makuri is one

of the top suppliers at the Open Country Whanganui factory with milk quality certificates being awarded every season.

HERD CLASSIFICATION

As of November 2024, Makuri has classified as follows:

26	EXC
38	VG
4	GP84

The 2yr olds will be classified in the autumn before the sale.

In the last edition of the HFNZ performance register, cows with the Makuri prefix classified as follows:

15	EXC
38	VG
4	GP84

MATING DETAILS

Sadly, in early November 2024 we lost our herd sire Makuri Gold Patriot in a paddock accident, so no bull was run with the herd. Therefore, all cows have been mated to AB. Our heifers were synchronized and mated to AB, then followed up with jersey bulls from the 1/11/24 to 23/12/24.

All cows have been scanned to date and all heifers pregnancy tested in calf.

COW FAMILIES AT MAKURI

MAKURI "H" FAMILY

The Hazel and Holly family were founded by the late Merton Leslie of the Lesdale Stud, with the purchase of Dalefeild Beets Hazel. Her daughter Lesdale TB Hazel VHC was born in 1959 and then her daughter Lesdale Lucky Heidi VHC further enhanced the breeding strength of this family.

8 generations later, we were blessed with M Goldwyn Hazel EX3. I think she has always been my sentimental favourite, she's my sort of cow who was a little immature when she was young but blossomed into the true dairy matron she is today. Even as a 15yr old, she still has a great topline, decent legs and a sound udder. 2 years ago, she had twin Crushabull heifers and was down for a couple weeks. She is a fighter, strong willed and never stopped eating. She finally got up on her own and after a year off milking, she's back in calf. She looks like an 8yr old.

Lesdale Lucky Heidi was Champion Cow at Stratford Show in 1968. Like many Lesdale cows, she was ahead of her time.

I heard a story that she had got off her halter overnight at the show. The grounds were searched and even the road. She was finally found, in the showground's cowshed, waiting to be milked; a trait she has passed on through the generations. L Lucky Heidi was sold to Marshalls in Victoris for \$3,100 in the Lesdale Dispersal in 1970. She founded an amazing family across the ditch.

The M Sam Holly line came from the purchase of Raybyn Star Hope VG from the Raybyn Dispersal in 1994. Her Granddaughter M Sam Holly EX3 was a prolific show and breeding cow. She won many championships including the NZ Premier Dairy Cow class at Stratford Show. She had a magnificent frame with a well-attached udder. Holly was always in my mind when making breeding decisions at mating time. She set the standard here for many years. Holly descends directly from Lesdale TB Hazel.

A relatively recent addition to the herd from this family is Bushview Prism Helen EXC and her sister Makuri Guthrie Hansol VG87. Prism Helen is the ultimate cow with strength, beauty and production with high components. Her ancestor is also Dalefeild Beets Hazel, through a different line via the Kereta, Novie and Ruaview studs. The Helen's at Ruaview led this great herd for type and production up until its dispersal in 1987.

The Hazels, in my opinion, are one of the most prepotent breeding families in Australasia.

KINGSLAND P FAMILY AT MAKURI

Bert King of Kingsland Stud held a displenishing sale in April of 1988. He had started the herd in 1962 and purchased Ngaio Paulette VHC in 1966 who was one of his foundation cows. At Makuri, her great granddaughter Kingsland Glen Paulene VG started a line of five Excellent generations to the outstanding M Goldwyn Peach EXC in the herd today. Goldwyn Peach traces over 120-times on her maternal side to Johanna Rag Apple Pabst, the foundation herd sire of the immortal Montvic herd from Canada. She probably traces at least as many times on the paternal side of her pedigree aswell.

There are many great sires in this pedigree, starting with Paulette's sire Otaki HCT Graham, then Linmack, Ridgewardin Judo, Tahora Linmack Glen, Scottish Sovereign Star, Lesdale Lincoln Kam, Karnvilla Peration, Ronnybrook Prelude and of course the great Goldwyn to get Peach.

There is also a nice VG88 Subban 3yr old selling from this family.

THE ROXY'S AT MAKURI

Much has been written about the great Glenridge Citation Roxy EX97 developed by Bob Miller. She was voted Cow of the 20th Century twice, having many descendants throughout the world.

In 2008 I visited Mil R Mor, this spurred a desire to one day own a Roxy. In 2014 I was able to purchase embryos by Windbrook, from a Goldwyn daughter of Gloryland Liberty Rae EX-95. We got 4 heifers who all went on to score EXC. One was sold as a pick in my 2018 reduction sale.

The other 3 Roxy's were retained with Makuri Windbrook Roxy EXC going on to successfully breed 2 EXC daughters so far. A standout cow in the herd is M Solomon Roxy who went EXC at 4yrs old. Roxy and her Crushabull daughter will sell. Makuri Doorman Roxy EXC is also breeding and producing well. She sells along with her Prism 2yr old and In-Calf Guthrie Heifer.

This opportunity is not only daughters from an imported embryo, but a line of Roxy's that have established a successful family in New Zealand in their own right.

THE BARBIE FAMILY

Our Barbies all descend from Regancrest PR Barbie EXC. I visited Regancrest in 2008 and her Shottle 2yr old's were just fresh at the time. Several world famous cows were bred from that litter.

I have had a few Barbie's over the years with the most successful being Makuri Cancun Breyan EX2. Makuri Cancun Breyan EX2 came as an embryo. She is a Cancun from a Lauthority from Regancrest Breyan. Breyan's dam was a sister to Regancrest-GV S Bradnick ET. A daughter of Breyan sells.

The most recent Barbie addition is Busybrook Solomon Barbara who classified VG88 as a 3yr old. She is an outstanding young cow. Her dam is Butz-Butler Gold Barbara EX96, she was supreme champion at the World Dairy Expo in 2019. Two of Barbara's unborn heifer

sisters sold at the Lawwal sale for over \$18,000 and her Lambda sister was sold at the recent Busybrook sale for \$23,000.

This is a rare opportunity to purchase a direct live daughter of Gold Barbara.

THE MYSTIQUE "A" FAMILY

In 2012 I visited the Mystique herd in Canada and was very impressed with this incredible cow family. Whilst there, I saw 4 generations of Amelies still in the barn, a rarity in that farming situation. This family stems from Roycedale Sheik Adrienne who is the dam and granddam of bulls Roycedale Achiever and Roycedale Approval, respectively.

The Goldwyns from Integrity Amelie especially took my eye with their strength, power and beautiful udders. Without hesitation I purchased an embryo package, resulting in 3 heifers being born in 2013. Makuri Gold Abba went to Bushview while the other two were retained at Makuri. Makuri Gold Abby EX2 was sold in my 2018 reduction sale for \$13,500. Makuri Gold Amber EX3 remained, going on to establish a nice family of descendants here. In the sale is her EXC and VG88 daughters as well as a promising 2.5yr old sidekick heifer. Amber was only shown once, in 2019, judged North Island Champion Cow at Stratford Show.

This family of cows has since flourished in Canada. Mystique Extreme Abricot EX94-3E was Canadian cow of the year in 2023. Her daughter Mystique Lambda Anis EX93 is the dam of AB sires Ambrose, Anahita, Aneesh, Avenger and others.

This Makuri Dispersal is an opportunity to purchase live animals from one of the elite cow families of the time.

AUCTIONEERS FOREWORD

Welcome to the Complete Dispersal Sale of Milking Herd and all mated Heifers of the long established Makuri Holsteins. Our vendor Mark Rowland established Makuri back in 1984 and for the entire 40 years has been dedicated to breeding the highest quality 'total package cow'.

The original foundation of Richlea cows and the later addition of the Painui herd, both rich in the legendary 'Lesdale' bloodline has set Makuri with mighty maternal lines. These great Cow Families have been built on with the very best Sires from around the world.

Mark has personally toured North America both inspecting daughters of Sires to introduce and to import embryos to further strengthen the herd. Famed families like – Roxy, Barbie, Adeen, Supra and the Mystique A's are now well established at Makuri. The addition of Jo's Dornview Cows has complimented Makuri with simply beautiful practical framed wonderful uddered incredible production lines. Down through the 40 years Makuri have enjoyed great success in the show ring winning many Taranaki Champions. Cattle sold from Makuri have performed so well for their new owners with many classified Excellent in their new homes.

On study of this catalogue, you will find incredible depth of pedigree throughout and indeed they all sell carrying very valuable calves, so you will be buying two for one!

I thoroughly enjoyed my visit to Makuri in the Spring of 24, just great cow one after another, all boasting tremendous pedigrees. The herd currently has some 26 EX and 38 VG's and a mighty line of milking heifers. The herd annual average production is over 660 kgs milk solids and boasts fantastic cell count, achieving several milk quality awards.

We assure you will all be so impressed with this offering and draw your attention to the most attractive vendor terms available. Yes, the Makuri Dispersal will be one of the most important sales held in the Nation for some time, don't miss out! Much more will be heard of the 'Makuri' Cow!

We do hope you can join us at the sale, however if not live bidding is at Bidr.

Brian Leslie OAM
Auctioneer

PGG WRIGHTSON FOREWORD

PGG Wrightson are very privileged and excited to be involved with the Makuri Holsteins Dispersal sale on-behalf of Mark Rowland and Jo Dorn in April.

This is a unique opportunity that only a complete dispersal presents the opportunity to buy such a uniformed deep pedigreed line of Holsteins.

Mark has spent 40 years breeding these cows and strategically buying animals from all around New Zealand along with importing embryo's from around the world with a focus of continually improving the Makuri herd.

We encourage dairy enthusiast from all around to country to ensure 10th April 2025 is locked into your calendars to come and view these wonderful animals that Mark and Jo are presenting for sale.

Purchasers can buy these animals with the confidence that every thought has been put into the breeding of these cows for many years along with the bonus of the valuable pregnancies they are carrying.

We would like to take this opportunity to wish Mark and Jo the best of luck with future endeavours and have no doubt they will enjoy following the success of these animals that they are offering into the future with the new owners.

PGG Wrightson Dairy Livestock.

TESTIMONIAL

It gives me great pleasure and indeed an honour and privilege to write this sale testimonial for my friends, Mark and Jo.

Over the last twenty years I have watched the progress of the Makuri Stud Herd which for me has been inspirational. Mark's attention to detail, in my opinion, wouldn't be matched by many. His innovative approach to dairy farming and his very successful breeding philosophy was very evident to me when he was farming in the Manawatu. Regular Visits at that time enabled me, not just to see that stud's progress but see first-hand his breeding philosophy in action.

Cow families were the standout for me with generation after generation of outstanding animals, cows that were high producing with quality vessels and notably correct teat size. Their overall dairy strength and quality was certainly very evident. One Matron that remains firmly in my mind is the Makuri Sam Holly EX3 cow, a winner of the Premier Dairy Cow (All Breeds) class at the Stratford Show. Apart from being one of the country's top individuals, she excelled with her progeny and was a descendant of Lesdale TB Hazel, one of the most prepotent breeding cows ever in New Zealand.

In recent years, Mark and Jo have formed a very successful partnership with Jo combining her knowledge and skills in farming Stud Holstein cattle which make their relationship on the Pembroke Road farm, second to none.

Now, with a shift in direction, the time has come to part with their outstanding Makuri Stud herd. For someone who values high cow quality, I wholeheartedly recommend you attend the Makuri Stud sale, you won't be disappointed.

In closing, I would like to take this opportunity to thank Mark for the opportunity for me over these latter years to keep an interest in our wonderful Holstein Purebred Cow.

TARUA ROSIE A

COMMENTS: One of the herd favourites. Ruby is from an old Mahoe cow family. Her 2nd Dam Makuri Stormy Rose VG89 won the Semex On-Farm NZ final in her year. Two sires made the Samen catalogue from this family; Makuri Skycheif Reward and Makuri Shottle Regan. They left many fine daughters in mainly grade herds.

COMMENTS: A superb individual. Hazel is a 4th generation EXC with 10 of the last 11 generations VG or EXC. Note the high milk components. Hazel is quick milking and quiet in the shed. She has a Lambda 2yr and in-calf heifer to follow. Her Lambda in-calf heifer sells as Lot 78.

COMMENTS: A pleasure to own and milk this outstanding cow. Nine generations to Glenridge Citation Roxy EX97. Much has been written about the Roxy family with yet another feature in the January 2025 Holstein International Magazine. Roxy isn't in calf - wonderful opportunity to flush her and start your own Roxy story.

Reserve Intermediate Champion WDE 2012

COMMENTS: As good as it gets! Solomon Barbara (Barbie) has so much potential. She had twins this year that set her back a little. Barbie has a superb udder and lovely temperament. She surely a franchise opportunity. Barbie was mated once and then we decided to leave her empty. After having twins we thought it best for her to grow out and let her purchasers take the opportunity to flush her. Her dam Butz-Butler Gold Barbara EX96 was supreme champion at the World Dairy Expo in 2019. Gold Barbara is a granddaughter of one of the worlds most potent breeding cows Regancrest PR Barbie EX92.

COMMENTS: 5th generation Makuri bred EXC. This cow family has been the heart and soul of Makuri for 35 years. Peach is a full sister to the great breeding bulls Makuri Gold Prism and Gold Patriot and maternal sister to five (5) bulls used in the herd in the last 20 years. Peach is a superb individual and this family has set the standard here. Goldwyn Peach traces 120 times to the great Johanna Rag Apple Pabst on the maternal side alone, and probably as many on the paternal side of her pedigree as well. I think you will struggle to find a pedigree likes her anywhere. Peach calved last Autumn and is due to calve down in the Spring to Anahita.

INNOVATIVE STOCKFEED SOLUTIONS

"Mark and Jo have done a wonderful job producing a top herd of Holstein Friesian dairy cows. This is a great opportunity to purchase some of NZ's finest"

Curious about different stockfeed options? Explore the latest innovations and formulations designed to boost milk production, improve cow health, and increase your farm's profitability.

Discover:

- ⚡ High-energy feeds for enhanced milk yield
- ⚡ Specialty feeds for calf growth and development
- ⚡ Nutrient-rich formulas for improved fertility and cow longevity
- ⚡ Advice on feed management and nutrition planning

Maximise your dairy herd's potential with the best stockfeed solutions.

"Castlegate James proudly partners with Mark and Jo to optimise their herd's diet and performance. Together we've achieved record production with customised in shed feed and adding PK brew into the feed pad"

COMMENTS: Bardo Kate was purchased at the Autumn Harvest Sale 2021. Her dam Kereta Mano Kahly EX2 was the top priced cow at the Kereta Dispersal. A cow I admired on the day. Kate is a production superstar. Shes averaged 2.89kgms over 305 days. She has a BW244, PW679 and LW 1382. Many outstanding cows from this family including Lesdale Telmatt Kate EX3 and Riversley Julia Brabazon. Her Guthrie in-calf heifer sells as Lot 77.

Holstein and All breeds Junior Champion
NZ Dairy Event 2019

COMMENTS: Finsco was purchased by Chris O'Connor at the Taste of Waipiri Sale for \$23,500.00. After the sale he offered me a half share and she was to reside at Makuri. She was a beautiful heifer on the day so I accepted. I remember being very impressed with her 2nd Dam Oak Lodge Goldwyn Fran-ET EXC when she was Intermediate Champion at Dairy Event 2018. She had two very large calves and fell empty. Along the way I purchased Chris' share in her. We made a late decision to show her as a 3yr old in 2021. She was a little under prepared and was placed in her class. We have flushed her once (MOET) and she made 22 sexed embryos all fertilised. She is for sale along with the pick of her two eldest heifers.
